AUTHORHOUSE, United States, 2004. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Rapists don't wear signs. Muggers and murderers don't hand out business cards. Child molesters don't advertise. Within every twenty-four hours, approximately 75 women in the United States are raped. Hundreds are murdered. Alarmingly, the majority of these crimes are committed by people known to the victims. Whether in the romantic throws of a relationship, in the workplace, considering a critical financial investment, or for your own safety, it is imperative that you learn to distinguish between your adversaries and your allies. From the minute a man enters a room, his body transforms into a virtual neon sign of his thoughts, feelings and intentions. Whether during an electrifying first date, a job interview, or a business negotiation, you can seize the most strategic position by accessing a man's mind. Distinguish between voluntary and involuntary expressions, especially those that reveal emotions, deceptions, and aspects of physical and mental health. Is he a bit down or downright depressed? Angry or livid? Flirting or into a long-term relationship? A liar or a lover? Evaluate a man quickly and efficiently by learning to speak his emotional language, building rapport, mirroring his moods and movements, and asking the right questions. You will literally learn to look a man straight in the eye, and before he utters a single word, know exactly where he is coming from. And, more importantly, where he is going. This book is not just a glossary of people's characteristics, but a step-by-step guide through the complex subtleties of the human psyche. How to Read Any Man's Mind is a practical, mind-opening, potentially life-changing, life-saving, exploration into the science of self.
