This investigation was proposed by the department under the California Water Resources Development Program. The Legislature concurred in this selection by the inclusion of study funds in the Budget Act of 1961. The investigation was initiated in July 1961 and is scheduled for completion in June 1966. This report is submitted at this time to more clearly define the objectives and scope of the investigation, discuss the progress made to date, and outline the course for future studies. The report and available background material will also provide information which may be useful to interested local agencies.
